Automation

Mass Update of TIERS Data

TIERS will update RSDI, SSI, and RR income amounts and the Medicare Part B premium amount for all TIERS individuals, including denied individuals, in a mass update. The mass update will occur the weekend of December 8, 2012.

- When the update is successful, the income and expense pages will reflect the effective begin date of the new data.
 - o Income increases and Medicare Part B premium amounts will be effective January 2013.
 - o New co-pay budget information will be effective January 2013.
- When the data cannot be updated, TIERS will generate Exception Reports for MEPD specialist action on individuals/cases.

The Mass Update will dispose the EDGs in the case, and send case-specific client correspondence on active cases/EDGs in ongoing case mode. TIERS will update data but not run eligibility in the following situations:

- Case mode is not ongoing
- Any EDG in the case is overridden

• EDG is denied

Applications and Ongoing Budget Changes Instructions

Applications approved before December 8, 2012

- For QMB, enter the 2013 RSDI/RR income amount. TIERS will not convert the amount.
- For all other applications, enter the 2012 RSDI/RR income amount. TIERS will convert to the 2013 amount.

Applications entered on or after December 8, 2012

- On Open/Close applications for the month of December 2012, use the 2012 RSDI/RR income amount.
- For all others applications, use the 2013 RSDI/RR income amount.

Ongoing Budget Changes entered before December 8, 2012

• For changes entered on or before December 8, 2012 or a denial, use the 2012 RSDI/RR income amount. TIERS will update the amount.

Ongoing Budget Changes entered on or after December 10, 2012

• For changes entered on or after December 10, 2012, use the 2013 RSDI/RR income amount. TIERS has already processed the annual COLA update.

Verification Sources

TIERS will use the following verification sources for the COLA, which EDBC considers valid sources of verification.

- "Percentage Increase Used" when TIERS calculated the new RSDI, SSI, or RR amount using the percentage calculation.
- "SMIB" when the Medicare Part B premium amount is updated based on the interface file.
- "COLA Update" when Medicare Part B premium amount is updated to \$104.90 and the client is not on the SMIB or BENDEX file.
- "SDX" when TIERS updates the new RSDI, SSI, or RR amount from the SDX interface file.
- "BENDEX" when RSDI income amounts were updated from the annual BENDEX file.
- A report (excel spreadsheet) of all MEPD cases that have a decrease in co-pay as a result of the COLA update will be created.

Correspondence

Due to the high volume of client notices, the Austin Data Center (ADC) will stagger the mail-out over three weeks beginning December 10, 2012. The date on the TF0001, Notice of Case Action, will be December 9, 2012. The TF0001 will contain the following message on the COLA change notice: "Your RSDI, SSI, or Railroad Retirement income and/or Medicare Part B

premium changed due to an annual Cost of Living Adjustment." This message will appear either in Mass Update or the first time the MEPD specialist disposes the EDG.

Reports

TIERS will generate reports for reasons outlined below for cases that cannot be processed in the Interface update process. The Exception Reports will contain specific instructions on the actions required by the MEPD specialist. The TIERS Implementation team will receive and forward the Exception Reports.

Exception Reports are generated for the reasons listed below. Staff is reminded to take the appropriate action once the information is verified. Appropriate case action refers to current MEPD policy for the specific type program and benefits.

- TIERS has multiple RSDI income records with different SSCNs but SDX, SSI-FS, or BENDEX has only one SSCN. The RSDI income records were not updated. Verify the RSDI amount for all SSCNs for the client and correct income amounts and SSCNs.
- The RSDI income records were not updated because the client is receiving RSDI on 4 or more SSCNs. Verify the RSDI amount for all SSCNs for the client and correct income amounts and SSCNs.
- The Part B Medicare premium does not equal to the old Part B Medicare premium amount. Mass Update was not performed on this case. Review the case and update the premium amount as appropriate.
- According to interface data, the Medicare Part B premium is paid by the state of Texas; however, TIERS does not reflect this information. Review the case, update data collection, and run eligibility.
- According to TIERS data, the Medicare Part B premium is paid by the state of Texas; however, the SMIB file does not reflect this information. Review the case, update data collection, and run eligibility.
- TIERS has multiple RSDI income records with different SSCNs and SSI. The records were not updated because the combined amount (RSDI and SSI) could not be determined. Verify the RSDI and SSI amounts for the client.
- TIERS indicates client is receiving RSDI and SSI; however, based on BENDEX the client's combined RSDI and SSI is over the individual combined amount effective January 2013.
 The RSDI income amount was updated with the amount from BENDEX and the SSI amount was updated to the difference between the combined amount and the RSDI amount. Verify the RSDI and SSI amounts for the client.
- TIERS indicates client is receiving RSDI and SSI; however, the client's combined RSDI and SSI is over the individual combined amount effective January 2013. Only the SSI income amount was updated using percentage increase. Verify the RSDI and SSI amounts for the client.
