DADS Vision and Mission

• Vision
  ➢ Older Texans and persons with disabilities will be supported by a comprehensive and cost-effective service delivery system that promotes and enhances individual well-being, dignity and choice.

• Mission
  ➢ To provide a comprehensive array of aging and disability services, supports and opportunities that are easily accessed in local communities.
Demographics

• Texas has the third-largest population of older adults (60+) in the U.S.
  ➢ The older population is expected to increase 67% between 2015 and 2030; age 70-79 to increase 104%; age 85+ to increase 71% by 2030.
  ➢ By 2030, older adults will comprise almost 21% of the Texas population; they were less than 15% in 2010.
  ➢ With an increase in the aging population comes a corresponding increase in the number of people with disabilities and chronic health conditions, impacting our health and human services system.

• Texas has the second largest population of people with disabilities, with an estimated 3 million individuals living in the community with one or more disabilities.
  ➢ Among adults 18-64, 10% have a disability; among adults 65+, 41% have a disability.
  ➢ Approximately 138,000 individuals have a significant intellectual disability; these individuals are potentially eligible for DADS services.

Access to Long-Term Services and Supports

- Individuals can obtain long-term services and supports through a variety of local access and entry points.
  - **Area agencies on aging (AAAs)**
    - Help for individuals who are older, their family members and other caregivers by:
      - providing information, benefits counseling, and assistance in accessing community services
  - **Local IDD authorities**
    - Help for individuals with intellectual or developmental disabilities by:
      - providing eligibility determinations and assistance in accessing appropriate services and supports
  - **DADS community services’ regional offices**
    - Help for individuals who are older and those with physical disabilities by:
      - determining eligibility for programs that provide alternatives to institutional placement and assistance with accessing appropriate services
  - **DADS aging and disability resource centers (ADRCs)**
    - Help for individuals who are older or who have a physical disability and family caregivers by:
      - Serving as integrated points of entry into the long-term services system
      - Pre-screening individuals to determine long-term needs and providing information and referral to public benefits and long-term services
DADS Guardianship Services

• DADS is directed to provide guardianship services to individuals who are:
  ➢ Referred by Adult Protective Services and determined by a court to lack capacity
  ➢ Aging out of Child Protective Services conservatorship and are incapable of managing their own affairs as determined by a court with probate authority
  ➢ Referred by a court with probate authority in certain circumstances

• Services include managing the ward’s:
  ➢ living arrangements
  ➢ estates
  ➢ medical treatment
  ➢ funeral arrangements
  ➢ disposal of property

• Services are provided directly by DADS staff or through contracts with local guardianship programs.

• DADS must limit its guardianship services to individuals who can fund their own needs.
