Interest Lists
Interest Lists

• In Texas, individuals names are placed on an interest list on a first-come, first-served basis.
• When an individual comes to the top of a list, the eligibility determination process begins.
• Once eligibility is established:
  ➢ the consumer selects a provider,
  ➢ a plan of care is established, and
  ➢ services begin
• While on an interest list, some individuals’ needs may be met through other programs.
Interest Lists

• Service levels are impacted by federal appropriations and funding appropriated by the Legislature.

• The 80th Texas Legislature appropriated $71.5 million General Revenue and $167.3 million All Funds for expansion of the Medicaid waiver and non-Medicaid community services programs at DADS. With the additional authorized funding, we anticipate serving an additional 8,902 persons during the 08-09 biennium.

Home and Community-based Services (HCS) Waiver
What is HCS?

• A Medicaid 1915(c) waiver first authorized in Texas in 1985.
  - Available statewide
  - Provides community-based services and supports to individuals with mental retardation or individuals with a related condition
  - Provides services to individuals of any age living in a variety of settings including an individual’s own home, his or her family home, a foster care setting, or a small group home setting in which no more than four individuals live

• Requires a Plan of Care approved by DADS. The annual cost of the individual’s Plan of Care may not exceed 200% of the annual reimbursement rate paid to a small ICF/MR for the individual’s level of need.
Who is Eligible for HCS?

- To receive HCS services, an individual must meet **diagnostic** and **financial** eligibility criteria.

  - Diagnostic criteria: Serves adults and children with a diagnosis of Mental Retardation and adults and children with a Related Condition diagnosis and cognitive limitations (IQ 75 or below)
  
  - Financial criteria: An adult or child is financially eligible for HCS if he or she is:

    - Eligible for SSI benefits; or
    - A member of a family who receives full Medicaid benefits as a result of qualifying for Temporary Assistance for Needy Families; or
    - Eligible for SSI benefits in the community, except on the basis of income, and meets the special institutional income limit for Medicaid benefits in Texas without regard to spousal income (this is also know as Medicaid Assistance Only or MAO); or
    - Under 20 years of age and the financial responsibility of the Department of Family and Protective Services (DFPS) and in DFPS foster care
HCS Service Array

The HCS service array includes:

- Case Management
- Adaptive Aids
- Minor Home Modifications
- Counseling and Therapies (includes audiology, speech/language pathology, occupational therapy, physical therapy, dietary services, social work and psychology)
- Dental Treatment
- Nursing
- Residential Assistance:
  - Supported Home Living
  - Foster/Companion Care
  - Supervised Living
  - Residential Support Services
- Day Habilitation
- Supported Employment
- Support Consultation
- Financial Management Services
HCS Program Structure

• Comprehensive Provider is responsible for:
  ➢ Case Management
  ➢ Direct care services, either directly provided or contracted

• Individual consumers can access services statewide and maintain eligibility for HCS regardless of whether they move within the state. The individual “owns” the slot, not the provider.

• Providers are required by program rules to provide a full array of program services as needed by the individual.

• The HCS program has a “zero reject” policy: if the consumer selects a provider, that provider must serve the consumer.
HCS Payment Methodology

• HCS is a “fee for service” waiver program administered by DADS.

• Most services have set hourly reimbursement rates, while some services have daily or monthly rates.

• The Rate Analysis Department at the Health and Human Services Commission (HHSC) develops reimbursement methodology rules for determining payment rates or rate ceilings for Medicaid.
HCS Snapshot

• Currently, there are approximately 14,000 individuals who are receiving HCS program services across the state.

➢ As of July 31, 2008:
  • 4,534 (32%) individuals are receiving residential services
  • 9,464 (68%) individuals are receiving services in their own, family or foster homes.

• There is an interest list for this program and as of June 30, 2008, there were 37,187 persons on the HCS interest list.
